

INTERNATIONAL
Wine & Heart
HEALTH SUMMIT

The Renaud Society, a society of medical professionals with an interest in better health and a passion for wine, in partnership with the Desert Heart Foundation, a 501 C(3) nonprofit medical research and education foundation, proudly announce the 2nd Renaud Society Wine Competition for the coveted Renaud Tastevin, in Napa California.

The 1st Renaud Society Wine Competition was held last year in Walla Walla, WA and awarded the coveted Renaud Tastevin to Skylite Cellars for their 2006 Reserve. The beautiful gold tastevin, mounted on a crystal testimonial, is proudly displayed in their tasting room in Walla Walla, Washington. Many excellent wines were awarded gold, silver, and bronze medals in a blinded judging by food and wine professionals, society commandeurs, and some of our research scientists. The Renaud Tastevin is a special honor bestowed on the highest scoring gold medal winner, and recognized as “best-in-show”.

Press releases and Desert Heart Foundation partner media participation provide well deserved visible recognition for winning entries.

As you know, cardiovascular disease is the leading cause of death and disability in women and men in our society. This competition specifically supports improved cardiovascular health through the foundations’ educational programs and research. The Desert Heart Foundation is no stranger to the Napa community, having hosted the 1st through 4th bi-annual International Wine and Health Summit there beginning in 2001. This important event promotes an open forum for scientific discussion specific to wine and health among key researchers in the international community.

Please participate in the Renaud Society Blind Wine Competition to be held at the Conference Center at the Silverado Resort in Napa on the 6th of November, 2010.

Please consider a tax-deductible gift to the Desert Heart Foundation. Your participation and support is most deeply appreciated.

Best of luck in the competition!

Sincerely,

Tedd M. Goldfinger, DO, FACC
President, Desert Heart Foundation
Director, Wine & Heart Health Research Initiative
Clinical Assistant Professor of Medicine and Cardiology
University of Arizona School of Medicine, Tucson, Arizona, USA
